

Tampa Florida

Oct 24th / 89

Aunt Lucetta,

Your letter

came a day or two before we started from home. I thought to write you ere this, was sick with bowel trouble for 10 days after our arrival. I think change of water the cause. we took our meals out during that time. Then I got a girl. & am getting along very well. Have house all clean took up Mattie's &c. It is a fearful job to clean here on account of the heat. & there is something about the atmosphere that enervates

work that I do not mind
in north unnerves me & I
become prostrated if I do not
quit it for a time. I am
very sorry to know that you
had a sick spell since you
were up. Otto is well. Louis
took a severe cold while home
& has not yet gotten over it.
I do not think he will ever
be able to remain north
winters. His throat & Lungs
are so sensitive to the cold
My Lungs are troubling me
badly now. I think 'tis the
effect of cold & overdoing during
the flood. It is very warm here
we keep all windows & doors
open all the time to breathe.
Quite as warm as our summer
weather north. I do hope you
will be careful & not take cold
nor overdo this winter. Write
to me. Address Tampa Florida
Yours affectionately,
Glenn
