

to go to my Regt yet & I dont  
know when I shall be although  
I can use my arm a great deal  
better than I was a few years  
ago. But I havent much strength  
in it yet. I should like to get  
my discharge well enough. But if I  
cant I had rather go to my Regt.  
I should be more contented to be  
there with Mr. Boys that I am  
acquainted with than I am here  
as I would ~~feel~~ be in N.Y. There isnt  
a single person here that I am  
sure we have all perfect strangers  
to me. It would have ~~served~~ served  
served a fullansom to me  
before I joined the army to be  
so far from home & among stran-  
gers as I am now but I have  
got so used to it that I dont  
mind it now. As long as I behove  
my self I can get a long among  
strangers well enough.

All I want you will excuse me untill  
evening & then I will finish this squally  
looking letter yours with much love adieu

A. S. A. General Hospital,

SIXTEENTH AND FILBERT STREETS.

Philadelphia, April 30<sup>th</sup> 1863.

Dear Sarah

I will try and write you  
a good long letter & tell you all  
about how & am getting along here  
in the City of Brotherly Love. I received  
your letters last Monday & I have  
neglected answering it because I am  
a going to be transferred to New York  
& I thought I would wait untill I  
got there. But I dont know how  
long I shall have to stay here  
before I can go so I will answer  
it now & then write you again  
when I get there. You would  
think Sadie to hear me talk of  
all the gay sights & splendid things  
that is to be seen here in the  
city that I could enjoy myself  
here first rate & be as happy as  
a clam for there is so many

places of amusement here & surroundings  
there is down splendid buildings  
in this city there is the Academy  
of music is the most splendid  
place I ever saw I have been there  
several evenings & then there is the  
Academy of Finarts is an other very  
interesting place there you will see  
all the curious things you can think  
of Birds & shells & skeletons &  
silver & Gold &c & every thing you can  
imagine it is worth a good deal  
to go & look at I am going  
there again to morrow you can go  
in free every Tuesday & Friday

How fat shandent you think  
I could be perfectly contented here  
nothing to do but to walk around  
& see the city & enjoy myself

But I dont enjoy myself half as  
well as I could in if I was in  
that awful place Shantown  
you know it is human nature to

allways be wishing for something  
that we cant get so I am all  
the time wishing that I was at  
home & thinking of what gain times  
& would have if I could only  
be in Gt. Valley I dont know  
what the reason is I never cared  
so much about being at home  
untill since I came a way this  
last time can you give me any  
reason why Gt Valley should be  
any more obars to me now than  
it was before I dont expect to  
get discharged now they have got  
so particular now about discharging  
men they want discharge any man  
less they are entirely disabled if  
they can do any light duty they  
will keep them I guess they will  
put me on some light duty  
such as provo guard at banette  
of that kind & not send me  
to my Regt. I am not able

a great rate I guess I will change  
the subject. Do you think of going  
to Ohio this fall to teach? I think  
it would be much more pleasant  
teaching with Weston than it  
would to be teaching a dreadful  
school like ours. Mrs. Miller  
thinks it is a disgrace for young  
ladies to teach school; it would  
be if they did not know enough to  
teach a ~~cat~~ perhaps she will make  
a grand lady of his Daughters

Why is it said that there is so many  
getting married in & around Gt Valley?  
what makes them in such a hurry?  
why don't they wait until the soldiers  
come home then the girls will have  
a better chance perhaps these 2 years  
men are coming home now & the girls  
will all get married so there will be  
none left for the 8 years men but it  
won't make any material difference with  
me will it ladies? I guess you will  
be tired enough before you get this all  
read so that you won't want me to  
write you another so long a letter  
in a good while But I shall write to  
you as soon as I get the ~~other~~ book so to  
tell you what to do. I don't think I this  
shall stay here long enough to get an answer from

A. S. A. General Hospital,

SIXTEENTH AND FILBERT STREETS.

Philadelphia, Thursday eve. 1863.

Sarah I suppose you think you  
are worthy of a great deal of notice  
now since you have got to be  
Aunt Sally don't you esteem it  
a great honor to be called Auntie?  
Oh Dearest I wish I could see you  
to night it is so handsome here  
to night it has been raining all  
day so I havent been out to day  
I have been reading all the Books  
& papers I can get hold of until  
I get so tired I had to go to sleep  
& I have just waken up & I feel  
now as though I should like to  
sit up until about 3 o'clock if  
I could be just where I a meant to  
be in a week & now am all the time  
here if I could be at home this  
summer & would have lots of fun  
I would go to school every

pleasant day when I am Shippard  
wouldnt be there wouldnt I be  
a good boy though; & kiss the school  
morn too But I am afraid Mary  
will have trouble with her school  
if I was a school teacher I wouldnt  
not teach in that district or in  
any other where I had to leave the  
school all my life for it is sure  
that soon am get up a press. But  
I wish her good luck. Then this  
has got married has he. & you  
have lost him just your clock  
poor child I am sorry for you

Please you will pardon me for  
not writing you a longer & more  
interesting letter when I wrote you  
before than you did at think I  
was apprised at you did you? for  
I was not & couldnt think of any  
thing that I wanted to tell you  
if I could have seen you that  
time I could have told you twice

as twenty times more than there  
was in that letter as this either  
you know Sarah & am a very poor  
hand to write. & you must excuse  
me if I make mistakes you will  
excuse you when you see Kit Kellogg  
give her my respects & tell her I  
honor her quit for treating Mrs Herring  
with the same respect that I did  
that is the way to treat snake folks  
give them a good name letting a  
lone don't you think so? If you  
see Mary Willoughby before I do  
give her my respects & tell her  
I dont forget the good visit  
I had with her when I was at  
home & especially that day right  
that she & I had that ~~day~~ night  
she runs up to our house. some  
how or other I took a great ~~for~~  
poker to Mary. perhaps it was  
on the account of his cousin  
There Sarah ant I running on at
