

home Pa & me would show a
home & if I should come home
with a head as a head of them
I would have one & if
I should come home all same
we could divide it up with
every so we could all get
our share well I hope write
all I can this time more than
you can read so I will
close good bye write soon
Adrian

Dear Mother
I would do like with him
I know the about like a
Address
Camp of the 94th N. Y. S. O.
near Reds mountain No.
October 2^d 1863
Dear Mother

Mother said you
wanted me to write to you
& direct to Clara I think I
wrote you last while you
was at Caeks but that made
no odds I will write a gain
The how been making aram
nd & how got near Red
mountain where our Regt first
met the Rebs. We have
been laying around here for
two weeks but not in our
Camp We have changed Camp
4 or 5 times since we come
here. I dont know where

we shall put to rest.
You can tell me & that is
all. I have been sick for
a least a week so I have
done no duty I have had
a hard cold & was a little
a fever I should have
a fever but I can let it
& guess I will get over it
after a little. I had a letter
from Lucretia Field she writes
that Grandma Chement was
died over father's have
not written any thing a
least it yet. She died a
week ago to day. I sup-
pose you know all a least it
long before this time.

I was a going to write you
a long letter a least your
leaving back. do you think
you can do any better than

you was doing there? or what
do you think? I will tell
you what I think a least it
if you have no objections
I think if you will be
steady, & work faithfully
& not be too free with
your money that you will
do better than you would
there. But if not that was
the best place for you.
Mather said you was a
going to try & earn enough
to get a yoke of cattle by
an other spring & let Pa
have them (to work &
suppose) I think you would
do it if you tried.
I mean to send them my
money as fast as I get it
& try & pray for that place
than if I was should come
