

it would do to let any body
know not even his wife, such
might be the case in certain instanc-
=ers though I dont say its so with
our man. I never have done any thing
or know of any thing but what I had
as has you would know as well.

Will Sarah this is awful Paes writing
I dont believe you can read this
but if you cant keep this till I come
home and I'll read it for you

Another great excitement here to
day "Cal Maffitt" says that the 94th
will all go to Sackets Harbor and
be mustered out now in a short
time they have orders to prepare
out mustering out papers now
as soon as possible. aint you
glad Darling you can look for
your "husband" have some time
before or shortly after you are 49
years old. so be patient Darling
dont get blue any more.
though they may issue some other
orders before they evacuate this
and conclude to keep us 4 or 5
years longer. so dont be too
sure of me coming

Adrian

Adrian was a week before you
left West to see a Mrs Darling from
well but now like nothing I cant
write a good many and more I
faded even the shot after 9 weeks

My Precious Wife -

your letter of
the 27th arrived here last night just
as we are sitting down on the ground
to take our supper. I didnt want to
eat but went into the tent ripped
open the envelope and commenced
chewing its contents with a great
deal keener appetite than I had for
my supper. Sergt. Mercer said Fay
is the damndest man I ever saw
when he gets a letter he'll stop every
thing else no matter what it is
to read it. I was over to the 183rd
last Sunday saw "Augustus Adams" &
Leon Ferington "Adams" said I had
a letter from home the other day
they said your Bro. had been at

not very soon
- you of - put it down in so soft
and was married. Then Boeth had
to break out. (it wasn't his Primitives
it was him.) we all had a hearty
laugh and it. Adams said he didn't
know the two Hay, boys apart But
the one that had married Sarah Flint
had married an excellent fine Girl.

I thanked him for the Compliment
and told him I thought so too.

We had our other Renew last Monday
by "Genius Tenton" I couldn't go
though for I had some great Reils
which exempted me from Duty all
that day I thought of K's superiority
so much with his that day. though

mine wasn't exactly in the same
place his was. Mine was on the
side of my leg. I went stammering
yesterday and got all the
nice ripe berries I could eat I
thought of you and wished I could
send you some But if you will

come down here the 30th with
Bees your Darling Hall - I wish I could
write you

in any prof. joes for being pencil &
and such a Basket full.
Grand laugh. or scold me if you
could see me now I just had my
hairs shingled tight to my head it
is all the style here now. though
I shouldn't have had mine cut so
short But it was coming out so
and was so dry and old I thought
it would come out better if it was
cut short. the name you give it
is Siniman's every man that
has his hair short is called a
Siniman hair. No Peter. I didn't
expect that you would think what
I wrote would apply to you at all
as that I doubted in your ability
of keeping a secret. I don't want
you to think so Dear. at all. that
wasnt what I had reference to.
But what I want to have you to
understand was that. in certain
instances a man might know of
something or have some secret that

Oh! you Peter
I am real short I am not giving to be
to day
I guess I was there to
I couldn't go
I wish I could
I wish I could
