you say you have never write
with a view to my deserting I
was well aware of that I think
I know you too well for that
but it is a hard task for me to
stay here and know that you are
so short of funds and no way to
get any more to you but I guess
I shall get my pay soon and then

I shall feel better in my mind
at least but I will close this
and write again in writing
as you can and I will do the same
this from yours in love
