a Cathartic Pills,
 for the purpose of a Laxative

Perhaps no one medi-
 cine is so universally re-
 quired by everybody as
 a cathartic, nor was ever
 any before so univers-
 ally adopted into use, in
 every country and among
 all classes, as this mild
 but efficient purgative
 PILLS. The obvious rea-
 son is, that it is a more re-
 liable and far more effec-
 tual remedy than any
 other. Those who have
 used it cured their neighbors and friends,
 and that what it does once it does always
 ever falls through any fault or neglect of
 action. We have thousands upon thou-
 sands of their remarkable cures of the
 complaints; but such cures are known in
 the neighborhood, and we need not publish them
 in all ages and conditions in all climates;
 whether colonial or any deleterious drug,
 be taken with safety by anybody. Their
 action preserves them clear fresh and makes
 them eat, while being purely vegetable
 and arises from their use in any quantity.
 operate by their powerful influence on the
 bowels to purify the blood and stimulate it
 by action—remove the obstructions of the
 bowels, liver, and other organs, of the
 bringing their irregular action to health, and
 that, wherever they exist, such obstruc-
 tions are the first signs of disease.

Directions are given in the wrapper on
 for the following complaints, which these
 pills cure:—

- Diarrhoea or Indigestion, Head-
 aches and Loss of Appetite. They
 taken moderately to stimulate the
 bowels to healthy action.
- Liver Complaints and all various sym-
 ptoms of Biliary Obstruction, such as
 or Green Stools, Bilious
 or Bilious Fevers, they should be ju-
 taken for such cases, to correct the diseased
 remove the obstructions which cause it.
 necessary or dangerous, but also mild
 generally required.
- Hemorrhoids, Constipation, Pain-
 of the Heart, Pains in the Side,
 and Loins, they should be cautiously
 required, to change the diseased action of
 the bowels. When such change these complaints
- to pay and the medical benefits they
 taken in large and frequent doses to pro-
 duce a drastic purge.
- Appetition a large dose should be taken
 before the desired effect is produced.
- Inner Pills, take one or two pills to be pro-
 duced and relieve the stomach.
- Seasonal Colds, Coughs, Hoarseness, and
 all kinds of colds, they should be taken
 before the symptoms appear, to prevent
 their return and to relieve the throat.
- Feels tolerably well, after taking these pills

We advise shipments of only strictly fine stock.
 Rolls are very dull, and some sell fair lots at
 thirty cents. Cheese still advancing. Eggs
 very dull, and there is very little trade even at
 reduced quotations. Dried Fruits are all doing
 better; and them new white buyers want
 them, and especially Dried Apples which sell
 quickly at quotations. Poultry dull. Tallow
 has an upward tendency.
 HERRMANCE & MANTON.

Married.

In Chicago, Jan. 12, by Rev. Mr. Tooke, Mr.
 S. H. HALL, of Chicago, and Miss E. L. ROCK-
 WELL, of Dunkirk.
