Dear Brother

I agin take the pen and write, to let you know that I am well yet. I have waited a long while for a letter from but it fails to come. the 20<sup>th</sup> of last month I wrote 4 letters and send them off together for that was the first time we had any chance to send a letter in 4 weeks on account of the march, yesterday I received an answer to one of them, but I have not heard from the one I send to father, I wish you wold write soon and write as often as ones a week amongst you wether I write or not. We ar in Savannah yet it was one month yesterday when we reached this place it is a very pleasant place, we have been doing provost duty in the city untill yesterday we had to guard the houses stores and warehouses, the warehouses are full of cotton they are shipping it off every day, their are a good many boats, going and coming to this city. I go and see them come in about every day, their are lots of Oysters here I have had several meals of them. We think here the rebels are about whipped for they wont wait to give Sherman battle any more they left this place in a great hurry before fighting at all and left all their cannons in their forts, The weather is warm yet, we have had but a little rain, except the other day we had a <sup>very</sup> hard thunder shower but now it has been quiet rainy for the last 3 days we have not seen any snow yet our old boys are mostly in the hospital. Larkins and W. Loring

are in this city hospital and I dont know where Leach. Buchanan

Dear Brother

I wrote to you day before yesterday and told you that we had left Raleigh and had gone towards Johnson's army, well yesterday morning we started back again and we are now in our old camp again. Johnson has surrendered his entire army to Gen. Sherman, we will start our march for Richmond tomorrow morning which is on our way home, from there we will go to Washington and then home I think it will take us 30 days to go to Washington there we will be mustered out and sent home I think it will take no from 2 to 3 month to get home some of the boys think we will get home by the fourth of July, I hope we will but I am afraid we won't, to day is the last time we can send out mail until we get to Richmond or Washington, so you won't hear from me again till we get to hi. I think we will have a sweater and dusty time on the march for it is very hot now. I like those berries very much I had some pancakes and berries for my breakfast I think I shall have some for my dinner the berries will last me a good while there is no use of writing any more for I can tell it better when I get home I give my best respects to all my old acquaintances and tell them I am as well as ever and will soon be home I shall be on the way tomorrow. Perkins and Hinman are well yet, best respects to you all, hope you are all as well as I am

Dear Brother

As I have nothing to do I thought I would once more write to you. I have not wrote in a good while I didn't know ~~if~~ whether it was best ~~to~~ or not I did not know but our corps might be all broken up before you could answer my letter. I received your letter dated may the 19<sup>th</sup>. This noon I have had 2 from you before this that I have not answerd so I thought I would answer this. It is not necessary for me to write any war news or about the close of the war for you have long heard of it, there is no need of my writing much anyhow for I shall soon be home myself. We left Raleigh N.C. the last day of April and past through Richmond may the 11<sup>th</sup>. we past through some good country the folks was hoking corn when we past through the country around Richmond and the grain was mostly all headed out, apples and peaches were quite large, straw berries are ripe, we had a grand review in Washington last Wednesday, it was a great time I wish you could have seen us that day, there were a good maney people in the city. the sidewalks, trees and house tops on the street through which we marched were crowded full, the people gave us a hearty welcome as we past through the street, such spotting of hands such waving of handkerchiefs and such cheering as they made I never heard before the ladies had prepared all kinds of flours which they give to us as we past them, we are waiting here now to have our discharge papers made out I think we shall be to home by the 4 of July. You

have been writing about the nice times you have had at  
the parties and dances, but never mind I shall make  
all that up. maby I was laying in some mud hole  
about those times down in S.C. but that is all forgotten  
now, we are now in a good and dry place beside the  
railroad, about 4 miles from Washington. tell mother to  
have a strawberry shortcake ready for me to eat  
when I get there. Mr. Mason was here to day. give my  
best respects to all and tell them I am well. I had a  
letter from Wease a good while ago but I have not  
answered it, till him I can tell him all the news by  
and by, and give him my best respects write soon I shall  
look for an answer next sunday it dont take mail  
long to come to us now the dried apples and socks I got  
all right

Dear Brother

It is just a month ago to day when we left Cast Otto, when we then looked ahead it looked rather dark, but things look better now, since then we have made a great circle in the United States and have seen many a hard day or night, but still I have seen lots of good times and I have had lots of fun, I would not have missed this chance for 1,000 doll. The people of the south was much surprised when they see us marching through there, for they thought we never could do it and another thing the reb. Soldiers had told them great yarns about us. They had told them that the Yankees had horns on their heads but they found it was not so. One instance I remember, it was the time we took Raleigh, when we marched through the city a boy remarked and said why I have stood here all this time and see the Yankees pass, but I have not seen one with any horns yet to which one of our boys remarked and told him, that he had seen some which had had horns — (horns of whiskey) of course and the rebels had told the darkies we would kill them all but they were all glad to see us they stood in crowds of 10 to 30 tall along the road. all those scenes we have passed, and are now in camp about 4 miles north of Washington, side the railroad, Troops are passing here every day for home. I guess we shant be home, not till the week after next, we have nothing to do at all and plenty to eat such as it is,

and we have what we call here, a good bed to sleep  
on, a few leaves & rubber blankets to lay on and a  
knapsack for my pillow I received your letter today  
about 2 o'clock. I think the straw berries will be ripe  
by the time I shall gett home they have been ripe long  
ago here I am as well as ever so is Willie but Tom is  
again in the hospital he will be discharged there give  
my best respects to all who may inquire after me  
and tell them I would soon be home and I shall  
make up all that I lost in the last 9 month I have  
been promoted to Corporal May the first I guess  
you had better write again, for I don't believe I  
should get the letter but regards to all
