

June 4, 1863

Local and Miscellaneous.

ELLCOTTVILLE, THURSDAY, JUNE 4, 1863.

Lieut. BYRON A. JOHNSTON, who has been at home on a short visit, returned to his Regiment, the 154th, on Monday last.

TO THE LADIES OF ELLCOTTVILLE.—The Ladies of Ellicottville are requested to meet at the Union School House this (Wednesday) evening, for the purpose of making arrangements for supplying the table at Concert Hall, on the occasion of the reception of our soldiers.

HON. ALONZO HAWLEY, of Hinsdale, has received the appointment of Deputy United States Marshal for the 8th Judicial District of this State. Mr. HAWLEY is admirably qualified for the position, and will make an able and efficient officer. His selection reflects much credit upon the appointing power.

Judging from the appearance of the venerable head which we see "Bob-bing at the case" in the window just opposite our office, we conclude that Cattaraugus is to have no representative in the Peace Convention. Art afraid of the "unclean thing." O thou double-dyed Copperhead!

A BAD PRACTICE.—The practice which some people indulge in of hitching their horses and cattle to shade trees, is a bad one and should be discontinued. Those trees are the pride and glory of our village; they have been reared with much care and labor, and it is a shame to make hitching-posts of them at the risk of disfiguring or destroying them.

It is a bad thing to make up a fight, but a good thing to make up a quarrel; but it is better to fight than to have your Grocer palm off any other Saleratus on you than Herick Allen's Gold Medal, manufactured at 112 Liberty Street, New York. We are glad to see that a good many of our merchants are selling it, notwithstanding they can't make so good a profit on it as on other kinds.

THEY HAVE COME!—We mean those huge piles of New Goods at the Farmers' Exchange. Their assortment of fancy dress-goods, calicos, shawls, muslins, laces, and the ten thousand other articles necessary to make a complete stock, is very large, and the list of prices cannot fail to satisfy even the closest buyers. Their teas, sugars, and groceries of all sorts present a tempting variety, and are held at unusually low figures. Give our friends BOSWORTH and FULLER a call.

The law to prevent cattle from running at large appears to be as generally disregarded as would an act to prevent bees from sucking honey out of flowers. A large drove of cows are almost constantly feeding on our public square and along the highways, and our side-walks bear almost daily disgusting evidences of their presence. We respectfully call the attention of our Village Fathers to these facts, and hope they will take prompt measures to have the law enforced.

—We notice that FAMES & Co

ADJ'T SAMUEL C. NOYKS, JR.—The Cattaraugus papers announce the death of Adjutant NOYKS, of the 154th Regiment, who was reported wounded and a prisoner. This announcement will pain many who knew Adjutant NOYKS during the stay of the Cattaraugus troops at this rendezvous. We knew him as a faithful, efficient officer, and a genuine gentleman. His abilities and remarkable executive talent gave great promise of future usefulness, and his early and untimely death is a loss to the country. He was a noble man and a brave soldier.—*Jamestown Journal.*

VOLUNTEERS—By an order issued by the Provost Marshal General, May 23d, 1863, District Provost Marshals are authorized to enlist men in any Cavalry Regiment now in the field. Persons in this District desiring to engage in this branch of the service, can do so by application to the Provost Marshal at his Head Quarters, in the village of Dunkirk, for thirty days. If found after examination to be fitted for the service, they will be furnished transportation to a general Rendezvous where they will be paid the bounty allowed by law.

GEO. W. PALMER.

Provost Marshal 31st District.

Every negro soldier enlisted and sent into the field diminishes by one the number of white men to be drafted. Any squeamish fellow who objects to having his fighting done by "a nigger" should at once report himself to the nearest recruiting officer and enlist.

MARRIED:

In Machias, on the 26th ult., by Rev. A. Newton, Mr. JOHN SEAMAN to Miss MARY LOOMIS, all of Machias.

May 28th, 1863, in the Town where the tornado laid its mighty hand, by a clergyman whose christian name is Loren, one DAVID, not King David to one MARY, not Queen Mary, who abode in the house of one Tanner, not by the sea side, all of Cattaraugus County.

It came to pass in the reign of Abraham, which will last till all rebels and copperheads are put under his feet. Our Union forever. AMEN.
No cake received.—*Communicated.*

DIED:

In East Otto, May 28, 1863, LOVINA M., only daughter of Hiram and Lodema Sikes, aged 21 years, 4 months and 14 days.

The deceased, when taken suddenly with the Typhoid Fever, was teaching the Union School, at Ellicottville.

Miss SIKES was an amiable young woman, endowed with superior abilities; and as a teacher had won a reputation worthy of the highest encomiums. She felt a deep solicitude for her scholars and longed to meet them again at the school-room door; but He who controls all things had ordered it to be otherwise. Her friends indulged no fears until reason abandoned its throne; then they saw that her departure was nigh.—As a Christian she loved the mild doctrines of the Savior, and desired to observe them in all she did. She was ready and willing to go when the death angel came to earth calling her home to eternal life. Her impressive obsequies were held at the Methodist Church, in the presence of a large concourse of mourning friends.

"Parted friends again may meet,
From the cares of life set free,
Crowned with mercy, oh! how sweet,
Will eternal friendship be."—*Communicated.*

In Mansfield, on the 27th ult., BETSIE, daughter of G. W. G. Bowen, Esq., aged 7 months and 27 days.

Yankee Robinson's Big Show
WILL EXHIBIT AT
Ellicottville, June 9th, 1863,

The Great French Remedy!

MADAM BOIVIN'S CELEBRATED SILVER-COATED FEMALE PILLS.

The only certain and Safe Remedy for all Uterine Obstructions, Monthly Difficulties, Irregularities, and all other diseases to which the Woman, Wife and Mother is peculiarly liable.

These Pills contain no deleterious ingredients, but are safe and certain in their action. They will be found to exert the happiest effect in all cases of Protrusion Uteri, Leucorrhoea, or the Whites; they will be found the easiest and most certain Cure that can be found. It is on account of this certainty they should not be taken by Pregnant Females (during the first three months, miscarriage is certain) to be brought on, but as other periods their use is perfectly safe.

N. B.—One Dollar enclosed to any authorized Agent will ensure package of Pills by return of mail.
O. CROSBY, General Agent,
Fort Erie, C. W., Buffalo, N. Y.

CAUTION.—Beware of Counterfeits, the genuine has the signature of C. CROSBY, on the outside wrapper. For sale by all respectable Druggists.

The Diseases of Error.

(Les Maladies d'Erreur.)

I, JOHN B. OGDEN, M. D., author and publisher of above work, do hereby promise and agree to send (if of charge) to any young man who will write for it a sample copy for perusal. The proper study of medicine is MAN. This valuable work is issued and set forth for the benefit of suffering humanity. It is in simple language on all the diseases of Error, including Seminal Weakness, Nervous Debility, Indigestion, Melancholy, Insanity, Wasting Decay, Impotency, &c.—giving safe, speedy, and effectual prescriptions for their permanent cure, together with much valuable information. All who favor me, with a desire to fit my work shall receive a sample copy by return in free of charge. Address

JOHN B. OGDEN, M. D.,
No 60 Nassau St., New York

We are apt to be free with our jokes upon Doctors and their drugs, until sick and in need of their aid, then all alike bow to the necessity of recourse to the hard-earned and often ill-requited skill. The prevalent belief that physicians frown upon whatever deviates from their peculiar system and usages, arises from the fact that their better information leads them sooner to detect and discard the medical delusions and impositions that are thrust upon the community. That they are ready and prompt to adopt any really valuable invention is seen by the treatment Doct. J. C. Ayer's Chemical Remedies have received at their hands. To appreciate the value of these medicines because they know their composition, and where is the man who heard a respectable physician either disparage them or discourage their use? No profession or pursuit done more for the human family than the medical profession. None is followed by nobler men or for nobler ends; nor is there one which better deserves the thanks of mankind.—*Canton (N. Y.) Democrat.*
