A DUBIOUS TRANSACTION.—On the 15th of December last, AMOS PETTIT, Esq., of this village, being about to close up his business as Butler of the 154th Regiment N. Y. V., left the Regiment near Fairfax Court-House, and started for home. On arriving at Washington, he hired a man who calls himself John Frazier, but whose real name is Elijah Metcalf, and whose parents reside in Franklinton, to drive his team, a very fine and valuable span of horses, from that city to Rushford, in the County of Allegany. After furnishing Metcalf with something like thirty dollars to defray his expenses, and directing him to write occasionally and report

Mr. Pettit took the City and came home, arriving here about the 18th ult. Time passed on, the full period fixed upon by the driver to complete the journey from Washington to Rushford expired, but neither he nor the horses had returned. On Saturday last, Metcalf received a letter from Metcalf, mailed at Washington and dated on the 28th of December, informing him that one of the horses had died on the 16th, that he sold the remaining span, and was on the same day, and at night, paid of the money, and a quantity of baggage which he had in charge. By this time Mr. Pettit is much at least, and is now in the city of Washington, and is going to investigate the matter.

him at the time of his death. The business is now willing to teach it to others. The business is of a highly useful and general character, adapted both to cities and villages, and one that any person of ordinary capacity, young or old, male or female, can acquire with a few hours' practice, and by which they can secure a very handsome income. Several young ladies who have received instructions from me, both in New York State and Pennsylvania, are earning upwards of \$15 per week by it, and there is no reason why any one else cannot do the same. Invalids, even, can do well by it, as it is no peddling affair, but a business that is perfectly respectable. Gentlemen and ladies of leisure, who would like to learn the business for their own amusement or pleasure, will find the practice of it a pleasant pastime, and one that they will take great interest in. On receipt of \$1, I will send printed instructions by which any person can readily acquire the art, and these instructions will also contain every particular relative to the carrying it on so that it will be highly profitable. The purchaser of the "printed instructions" will also be authorized to teach it to others; and I have sometimes received as high as \$200 for teaching it personally to a single individual. I would state further that \$250 or \$3 will buy everything that is necessary to commence the business with, and the articles can be got almost anywhere, in city or country, or, if preferred, I can furnish them. Address ALVORD T. PARSONS, No. 36 Liberty Street, New York.
