The peculiar taint or
infection which we
call SCROFULA lurks
in the constitutions of
multitudes of men. It
either produces or is
produced by an en-
feebled, vitiated state
of the blood, wherein
that fluid becomes in-
competent to sustain
the vital forces in their
vigorous action, and
leaves the system to
fall into disorder and
rotation. Contamination is va-
riety, mercurial disease, low
digestion from unhealthy
diet, and filthy habits,
vice, and above all, by
infection. Whatever be its
origin, it is hereditary in the constitution,
and is transmitted to children un-
der the parental generation. Indeed, it

visit the fathers upon their
children, and the fathers upon their
children, according to the organs it

ample of.

THE DRAFT--The conscription law
gets but few soldiers in this county. Ellicott-
cottville paid up--only one man going. Sam
Huntley and the Junior Editor of the Freeman
paid up and staid at home, like "Brave Sojer
Boys." The "old buggy" and the Colman's
\$300 goes to war!

It is not often that we come in contact
with an article that we feel justified in recom-
mending to our numerous readers, but the arti-

Howe & Stevens, advertised in this week's pa-
per, we feel we can heartily recommend to all
who may have use for dyes of any colors.

For sale by all Druggists.

REPUBLICAN DOCTRINE.—Jim Lane, United
States Senator from Kansas, and a great man
in the Administration ranks, in a late speech
at Kansas, thus proclaims the real Republican
doctrine:

"The Constitution as it was is "played out,"
—its technical definition is the restoration of
slavery, and I am ready to see any Kansas man
shot down who favors the Union as it was."
